b
paired training
partial r = 0.72
effects shuffled in training
partial r = -0.71
x coordinate, r = 0.62
y coordinate, r = 0.82
x coordinate, r = -0.86
y coordinate, r = -0.56
effects field of the activated location (px)
landing of the stimulus (px)
landing of the stimulus (px)
both axes after removing the part linear in the stimulus place
